MI-O-NA QUICKLY **ENDS INDIGESTION**

There is a way for you to eat what ever your stomach craves and do it over again the next day. Many will say "How I wish I could but I have tried and every, time it nearly kills "me"

The real trouble is that people who suffer the untold agony of indigestion, do not properly care for the stomach.

Every stomach has a let of work to perform in digesting the food and if crowded with extra labor it rebels and kicks up a foarful disturbance,

WHAT DYSPEPTICS

A PHYSICIAN'S ADVICE

'Indigestion and practically all forms of stomach trouble are, pine times out of tap, due to acidity; therefore stomach top, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, siesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid, which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the fool contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia as directed above, and see if I'm not right." A PHYSICIAN'S ADVICE
